Calling all Nurses ... Canada Wants You!

Fed up of being over-worked and under-paid? Had enough of NHS staff shortages and lack of appreciation for the vital contribution you make to the health of the nation? If so, you're not alone. We know morale amongst the UK nursing profession has been in decline over recent years – and many people are looking at alternatives to enhance their career satisfaction and give them new lifestyle opportunities.

Have you considered emigrating to Canada?

Canada is crying out for teachers and there are excellent job opportunities. There are various visas available but the most common is Skilled Worker, a points' based system whereby points are awarded for the following factors:

- Age
- Education
- English Language
- Work Experience
- Adaptability

With a confirmed job offer, extra points are awarded and the case receives priority processing so you could be enjoying the fantastic lifestyle Canada has to offer within just eight months of application.

Four Corners has already helped thousands of people to realise their dreams of a new life in Canada, all wanting to experience its wide open spaces, fantastic standard of living and unbeatable lifestyle.

The Four Corners service extends well beyond the visa processing; we provide a comprehensive **Relocation & Resettlement** service too, providing all you need for a seamless move. We can even help you to find a job by setting up interviews for you and arming you with all the information & advice you need to secure the perfect offer.

So don't delay - now is the time to act before these life-changing opportunities are snapped up! Call us now on 0161 608 1608 or complete our **Free Online Eligibility Check**. We will then send you a Four Corners Information Pack which tells you more about us, how we can help you and details our simple and straightforward 5-step process to starting your new life in abroad.
